FLEX PRO

RADIO REMOTE CONTROLS

FLEXIBLE PROPORTIONAL CONTROL IN A HANDHELD

Our ergonomically styled Flex Pro series incorporates the latest in proportional control technology in a lightweight, comfortably contoured, yet durable case. It's available with several options to meet the needs of a variety of applications and industries.

COMFORT AND STYLE IN ONE PACKAGE

- Ergonomically designed contoured case with available rubber jacket makes it comfortable for the user
- Designed to be compact and lightweight to prevent operator fatigue

Protective rubber jackets and cases are available

FLEXIBLE AND ADAPTABLE TO YOUR SPECIFIC REQUIREMENTS

- Rugged, tough nylon housing is made to withstand shock; protective cases and accessories available for harsh environments
- Rated NEMA 4 (IP66); sealed to withstand harsh, industrial environments
- Informative LEDs provide diagnostic and system status
- Designed to minimize power consumption, providing one of the longest life batteries in the industry today — rechargeable NiMH battery pack available

VERSATILE YET PRECISE OPERATIONS

- Choose 8 or 12 proportional button configurations with precise control for smooth operation
- Adjustable speed control – four mode settings (25%, 50%, 75% and 100% output) provide precise control of machine movement
- Buttons can be configured as proportional, on/off, or a combination of both and include a variety of standard labels
- Revolutionary I-CHIP module makes this a universal transmitter that can be programmed in the field

PERFECT FOR USE IN A VARIETY OF APPLICATIONS

The Flex Pro can be customized to meet almost any application. Magnetek provides innovative, cost-effective, custom-engineered radio remotes complete with crane interface controls. These are configured to your specifications, reducing internal engineering and manufacturing costs, improving time to market, and enhancing equipment performance. We offer complete plug-and-play control packages configured specifically for your material handling equipment, manufactured and tested on our panel assembly line.

Packaged system options include:

- VFDs, PLCs, and contactor controls
- Programming as the application requires
- NEMA 4 and stainless steel enclosures
- Pre-wired cables with festoon
- Collision avoidance

RECEIVER

The Flex Pro can be combined with our MHR Radio Controller to provide a total radio control system for operating mobile equipment, including boom trucks, truck mounted cranes, derrick diggers, concrete pumpers, trenchers and much more. The MHR integrates the components of a radio receiver and hydraulic controller into a single unit, reducing cost and freeing up valuable space. It features an informative graphic display for viewing and modifying system settings and machine functions in the field.
